

“LSD” - Side Dump Spreader

- ▶ Designed for chassis with 17,500 minimum GVWR.
- ▶ 3/16” Corten floor.
- ▶ 10 Gauge Corten sides.
- ▶ 10 Gauge Corten tailgate.
- ▶ 84” Interior width.
- ▶ 96” Exterior width.
- ▶ Fixed integral passenger side with inner tilting floor and side plate.

- ▶ Two 2-1/2” bore by 16” stroke double acting inner side tilt cylinders.
- ▶ Corrosion resistant steel construction.
- ▶ Double acting tailgate.
- ▶ Removable conveyor floor.
- ▶ Underbody hoist Everest model: UBDL1618DA designed for “severe service”.
- ▶ Dual outboard safety props.

“QUALITY by DESIGN”

Conveyor uses 667X type pintle chain at 12" wide with 3/8" x 1-1/4" flites on 4-1/2" centers. The conveyor is self cleaning drag chain powered through a 10:1 reducing gearbox and hydraulic motor.

Optional Equipment

- ▶ **"LSD" screen package.**
- ▶ **18" polymer spinner.**
- ▶ **Fold up ladder.**
- ▶ **Ladder (2 steps).**
- ▶ **Oval light kits.**
- ▶ **Hi-temp tilt floor wiper.**
- ▶ **Airgate kit (if equipped with air compressor).**

Unique chain tensioner automatically adjusts chain tension. The conveyor chain runs smoothly through our two roller chain tensioning device. Tension is maintained with two tension springs, which reduce stress to the conveyor chain unlike conventional tensioners.

Spinner assembly is adjustable to allow you to spread material where you want it. The spinner is 18" diameter with six (6) disks, hydraulic powered. The spinner assembly can be removed for summer use. The polymer chute is hinged to the front driver's side corner of the spreader body.

"LSD" side dump spreader body can be used either as a salt and sand spreader application or as a conventional dump body. The dumping action is achieved by the use of a direct mounted 6" bore by 18" stroke double acting cylinder.

Models Available

| Model | Length | Sides | Tailgate |
|----------------|--------|----------|----------|
| LSD08M1620-H10 | 8' | 16" High | 20" High |
| LSD09M1620-H10 | 9' | 16" High | 20" High |
