

### *Poured Foam Refrigerated Bodies*

*Tough, Durable Construction – Quality Refrigerated Transport Body*

#### **Strong, Light Weight**

- Stainless steel & aluminum components resist corrosion, reduce maintenance
- Highly resilient, easy to clean fiberglass interior liners
- Can carry more, lasts longer

#### **Superior Temperature Holding Capacity**

- Up to 4" of pour foam creating a dense, efficiency insulating barrier
- Lower operating costs, less fuel, reefer maintenance
- Deliver perishable & frozen cargo in optimum condition within HACCP guidelines
